

## Division Updates

# Adult Reconstruction Division

Charles Nelson, MD

### Arthroplasty Faculty

Charles Nelson, MD

Craig Israelite, MD

T. David Tarity, MD.

Christopher Anthony, MD

Neil Sheth, MD

Christopher Travers, MD

This past academic year has been a productive one for the Penn Orthopaedics Adult Reconstruction Division. Despite many of the challenges with the ongoing COVID pandemic, the adult reconstruction division has maintained a high surgical volume and provided high quality care for a wide spectrum of patients. We continue to care for both healthy and high-risk patients with innovative strategies to minimize complications and optimize quality in the high-risk patient cohort. In addition to clinical excellence, our faculty have remained active in making scientific contributions and clinical education nationally and internationally, as well as serving in leadership and volunteer positions within most of the important national orthopaedic organizations including: the American Academy

of Orthopaedic Surgeons; The Hip Society, The Knee Society, the American Association of Hip and Knee Surgeons, the American Orthopaedic Association, and the American Board of Orthopaedic Surgeons. Our faculty participated in several dozen peer reviewed publications, scientific presentations and invited lectures in 2021. The division continues to remain active in clinical research with substantial federal and industry funding. The adult Reconstruction faculty members currently include Professor Charles L. Nelson, MD, Associate Professors Eric Hume, MD, Craig Israelite, MD and Neil Sheth, MD and Assistant Professors Christopher Travers, MD, Christopher Anthony, MD, and T. David Tarity, MD.
